Dear Sir, dear lady,

The Dayeng Foundation therapy center was founded in 2001 by Prof. Lupus Dayeng. Prof. Dayeng had researched the causes of the most common diseases, also referred to as so-called civilization diseases, for many years. The clear results led Prof. Dayeng to develop a therapy that individually treats these diseases. The successes were exceptional. The exact background to the development of these diseases and how they can be cured, we have summarized in a film. This film can be found on the homepage of our website. We highly recommend watching this movie, it is 30 minutes that can change your life.

Our therapy is very comprehensive. First, the weakened immune system is strengthened and restarted. The entire lymph system is repaired. During the therapy, the patient is separated from all chemistry, including personal care products. All patients receive natural personal care from us, also fluorine-free toothpaste. Also the food is purely natural without any additives. Important sun therapies for the formation of vitamin D, special massages and the intake of cancer-destroying enzymes and plant ingredients are a further building block which corrects this misinformation to the immune system and many other treatments take place.

Our statistics, which we have been leading and publishing since 2001, show a cure success, in most diseases, well over 90%, and even 99.8% in cancer. Filmstars have also been successfully treated by us.

Why so many people suffer from these terrible illnesses and what can be done against them, many celebrities have also understood. Thus also Robert De Niro.

Robert De Niro, however, has gone a step further, he himself has made a film about it. This is a good way to the truth, for only through the recognition of the real causes, which are artificially generated, can an awakening take place. People do not get sick, people are made sick by unscrupulous industries that even buy governments.

We are no longer alone in the fight against these diseases.

We are also happy to help you defeat your illness. Our success is extremely high, but this has a reason. We first turn off the cause of the disease. Then we turn off the disease. That sounds very simple. This is exactly what it is.

Classical medicine goes a different way, it goes the way of the profit. If, however, profits are in the foreground, the priorities are set incorrectly. A doctor of classical medicine has no interest in curing his patients. Otherwise he would not have any patients. This conflict of interests forces these doctors to break the Hippocratic oath.

Think critically and always question everything. Drugs should make people healthy? Are you sure? Do you know what's inside medications? If you buy a new car then ask the seller everything about this car, you want to know all the details. Well, it's just a car, a car does not live. However, did you ever ask your doctor a single time, which is included in the vaccination course, for example, which you and your children are injected with? We'll tell you. Included are: aluminum, formaldehyde, mercury and more. Do you know what trigger these substances? Watch the video on our website.

Separate yourself from manipulation and lies, question everything. We help you regain your health. Come to us.
